ABOUT

I am a dance performer, and I am a makeup artist and a stylist. I spend time exploring my life purpose and how I can use my creative skills and talents to best serve humanity. I possess an incredible sense of wonder about the world with capability of experiencing a great depth of feelings, which I tend to express outwardly through movement and other artistic interests.

Furthermore, my practice and technique in dance are cultivated through Ballet, Contemporary, Jazz, Tap, Commercial, Ballroom and Latin American dancing. Additionally, I have been trained in Acting and Singing. I have experience in stage performances, site-specific projects, shooting a tv spot and a short dance movie.

I have been inspiring others around me with my talent from a young age. Continuously expanding and fine-tuning a body of work, I strive to make a difference through every project and performance. To learn more about my artistry, abilities, and accomplishments, get in touch today.
